## Summary

Full-Stack Software Engineer with expertise in React.js, Next.js, Node.js, and MySQL. Currently pursuing a BSc in Software Engineering and experienced in building web applications and CRM systems. Strong problem-solving skills, self-learner, and eager to contribute to innovative projects.

## Experience

**Lakion** (10/2023 -01/2024)  
Full-Stack Software Engineer Gampaha

During my internship at Lakion, I worked as a Full-Stack Software Engineer, where I developed a CRM system using Next.js, Prisma, and MySQL. I collaborated with the development team to ensure tasks were completed on time and successfully delivered the project within the internship period.

**Flexy Code** (02/2023- 08/2023)  
Software Engineer Intern Gampaha

At FlexyCode, I worked as a Software Engineer Intern and gained hands-on experience in MERN stack development. I developed frontend features using React.js, while also working with HTML, CSS, and JavaScript. Additionally, I gained backend experience with Node.js and Express.js through various project tasks.

## Education

**Cardiff Metropolitan University** Following  
Bachelor of Software Engineering, Computer Software Engineering Software Engineering

Currently pursuing a Bachelor’s degree in Software Engineering at ICBT Campus, affiliated with Cardiff Metropolitan University, UK. The program focuses on computer software engineering concepts and practical development skills. Expected completion: May 2025.

**Cardiff Metropolitan University** 2022/02 - 2024/02  
Higher Diploma in Computing and Software Engineering Software Engineering

Completed the Higher Diploma in Computing and Software Engineering at ICBT Campus, affiliated with Cardiff Metropolitan University, UK. The program covered core concepts of software development, programming, and computing technologies. Completed in February 2024.

## Projects

### Yamu Travels - AI-Powered Travel Planing Platform

Tech Stack: Next.js, React.js, Node.js, Express.js, Prisma ORM, MongoDB, Gemini API, Stripe

- Developed a full-stack AI-powered travel planning web application enabling users to generate personalized itineraries using Gemini API based on interests, destinations, and travel dates
- Integrated an interactive map view showcasing suggested routes, tourist spots, travel durations, and optimal navigation paths
- Implemented real-time data integration for weather, traffic conditions, and attraction availability to enhance travel planning accuracy
- Built a secure booking system for accommodations, transportation, and activities using Stripe for seamless payment processing
- Designed a dynamic user dashboard for managing saved trips, enabling collaborative trip planning, and providing sharing functionalities
- Delivered a feature-rich, responsive user interface using React.js and Tailwind CSS, ensuring a smooth user experience across devices

### Learning Management System – Full-Stack Educational Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Developed a full-featured LMS enabling interactive lesson delivery with multimedia content (video, audio, documents)
- Implemented automated assignment grading and real-time progress tracking to enhance educator efficiency
- Integrated a live virtual classroom with screen sharing, session recording, and interactive whiteboard support
- Designed customizable learning paths to personalize educational journeys for different learner profiles
- Built a comprehensive analytics dashboard providing insights into student performance, engagement, and course outcomes

## Volunteering

**ICBT Student Council** Jan 2022 - Nov 2024  
President ICBT Gampaha Campus

Served as the President of the Student Council at ICBT Gampaha Campus for the academic year 2023–2024. Recognized for my leadership and contributions to the welfare and development of the student community. Successfully organized and managed initiatives aimed at enhancing student engagement and fostering a positive campus environment.

## Certifications

**Higher Diploma in Computing and Software Engineering** September 2024  
Cardiff Metropolitan University

**Web Design for Beginners** February 2020  
University of Moratuwa

Certified Web Designer from the University of Moratuwa with foundational expertise in HTML, CSS, and JavaScript. Passionate about creating clean, responsive, and user-friendly web designs. Eager to expand my skills and contribute to innovative web development projects.

**Introduction to Programming Using HTML and CSS** January 2020  
HackerRank
